Ball Paradise – Four Player

The eye catching Four Player Ball Paradise is a fast-paced skill prize vending game where up to four players or a whole family can play simultaneously as the capsules/balls are moving round on the carousel.

Players must simply press the button at the right moment to correctly hit a ball/capsule of the moving carousel into the hole.

A prize is won by successfully shooting the capsule off the playfield into the hole.

When a player is successful, the winning prize is collected from the lower tray. Subsequently, a capsule/ball swooshes down from the top holding box onto the playfield replacing the previous capsule/ball.

The top dome can hold approximately 350-400 large capsules.

The moving carousel can display up to 24 large capsules, so players can wait until their preferred prize is in line with the hole to try and win.

Optional prize every game feature – players can win large capsule/ball with every game

Presented with LEDs, bright colours, Ball Paradise is lots of fun for all the family as they can play together and is ideal for any family entertainment centre.

It is a Prize vending and also has the optional redemption ticket feature.

Available in three different colours: Blue, Light Blue and Pink
