Castle Attack Mini

Castle Attack Mini provides an exciting twist on the classic basketball game that's very interactive and fun for all the family.

Castle Attack Mini encourages players to notch up baskets in order to defend a castle from monsters mounting the walls on ladders, all presented in an "eye-catching" cabinet boasting LEDs and colourful graphics.

There are six baskets, which means six ladders; players in a two-player game must work together to stop the monsters from climbing up the ladder.

Players are able to defend the fortress across three different levels; Forest Castle, Ice Castle and Iron Castle, and when players successfully complete the level they can access a bonus game mode to win more points.

The faster and more accurate, the more chance of defending the castle from the monster attack.

Will you succeed in stopping the Castle Attack?

Castle Attack is targeted at younger audiences to play with their siblings, friends or parents, who are seeking something different from the conventional basketball game.

Castle Attack Mini will have a 49" LCD Screen and uses mini sized basketballs for the younger audience.

Castle Attack will also have three operator selectable modes – video only, ticket redemption or prize vend to suit the needs of the venue.

Dimensions

Height: 240cm
Width: 118cm
Depth: 166cm

Weight: 360Kg
