Eclipse Photo Booth

The Eclipse Photo Booth is the first of its kind, to have a huge 12ft curved LED Video Wall visible from hundreds of feet away. The eye-catching cabinet, with grab attention of passer-by's from any direction even from above! It's a highly attractive piece in any location, whether its in an FEC, Shopping Centres, Theme Parks and more.

The Eclipse Photo Booth has achieved an unprecedented occurrence never seen before. Watch as users find it beyond belief that the photos taken inside the photo booth are displayed on the huge exterior LED screen outside – They will take pictures of their own photos being displayed on the big screen.

The Gigantic LED screen wraps around the outside of the Photo Booth to provide maximising exposure. The interactive LED screen is capable of showing videos, photos, adverts and much more. The screens are totally customisable so they can be adapted to any event or show marketing material in any location.
