Let's Print Photobooth

Where Memories Come to Life!

From nightlife hotspots to bustling arcades, this sleek and stylish unit blends cutting-edge tech with timeless fun. Built tough for high-traffic venues and easy enough for anyone to use – it's the ultimate photo attraction.

Whether you're snapping selfies or sharing laughs with friends, Let's Print Photobooth delivers instant memories in print.

Prefer printing from your phone? Use SmartPrint to send photos straight to the booth.

Want to bring your online favourites to life? Facebook Print lets you pull those perfect pics right from your feed. However you choose to print – it's your moment, your way.

Get ready for a powerhouse of photo fun! Snap, print and instantly share your creations to over eight major social platforms. With encrypted data protection, your memories are always safe. Choose between 4 x 6" photos or classic photo strips, all captured with a 10MP Full HD Camera. The Mitsubishi D80 printer ensures high-quality output, while the responsive touchscreen and internet connectivity make operation a breeze. It's sleek, durable and built to perform.

Turn any moment into a printed memory – add excitement, branding and tech magic in one sleek unit.

Smile. Snap. Share!
