Skill Cut Special

Skill Cut Special is the ultimate evolution in skill-based amusement, meticulously designed to captivate players!

Building on the proven success of the original Skill Cut Winner, this new machine brings enhanced playability and a fresh, attractive aesthetic to your arcade floor.

The core thrill remains: players test their precision and timing to "cut the string" and claim a large prize. This intuitive and challenging gameplay ensures repeat plays and an exciting experience for all ages.

Skill Cut Special boasts a sleek, new design engineered for maximum visual appeal that draws players in.

Security and visibility are paramount, which is why we've maintained a two front door aspect. This innovative feature ensures both prize safety and clear viewing of the game's mechanics and potential winnings.

For prize retrieval, only the top glass door needs to be opened. This can be set to open automatically or manually via an attendant with a flick of a switch.

Key Features:

- **Engaging Gameplay:** A true test of skill with large prize potential.
- **Modern Aesthetics:** A completely new design for increased attractiveness and player draw.
- **Optimized Layout:** Play area moved for enhanced player interaction and visibility.
- **Ticket Redemption Option**
- **Vibrant Colours:** Striking Red or classic Yellow to match your venue's theme.

Expand your world of play with Skill Cut Special – a winning combination of skill and spectacle.
