## Galileo Evo-Twin Ticket Eater

After 10 years of success and the installation of thousands of devices worldwide, the Galileo Ticket Eater has evolved into a two player unit.

Introducing the Galileo Evo-Twin Ticket Eater.

The Mechanics and electronics are the same tried and tested as the GALILEO PRO

The centre piece is brand new eye catching design with LED "multi-colour" lights, The walls are completely transparent plexi-glass and frame made of aluminium specially designed.

There is the greatest choice for customization for example:-

External logos, instructions, etc.

In many different languages; Also the writing on the display, sounds and voice information can be programmed in languages for example in Turkish, Arabic or Russian, etc.
